

NSS Blanket Distribution Report

The NSS Unit of Keshav Memorial Institute of Commerce & Sciences (KMICS) successfully conducted a **Blanket Distribution Drive** on **27 December 2025** as part of its commitment to social responsibility and community service. The programme was organised with the active participation and generous support of **NSS volunteers, BBA students, and teaching & non-teaching staff of KMICS**.

The drive was carried out at **three locations**: the **Old Age Home at Bhagligampally, Kachiguda Railway Station**, and among **roadside beggars and homeless persons in and around Narayanaguda**. The objective of the programme was to provide warmth and basic comfort to vulnerable sections of society during the winter season and to inculcate values of empathy, service, and social awareness among students.

Funds for the programme were **collectively raised internally** through voluntary contributions from NSS volunteers, BBA students, and staff members of the institution. The collected amount was utilised exclusively for the purchase of blankets, which were distributed with dignity and care to the beneficiaries. All financial transactions were handled by the NSS Unit, and bills and receipts are maintained for record and transparency.

At the **Old Age Home, Bhagligampally**, blankets were distributed to elderly residents, who expressed heartfelt gratitude for the support. At **Kachiguda Railway Station**, NSS volunteers reached out to needy passengers and platform dwellers while maintaining discipline and safety norms. The final phase of the programme involved distribution to **roadside beggars and homeless individuals around Narayanaguda**, ensuring that help reached the most vulnerable.

The programme was well-coordinated and meaningful, leaving a positive impact on both beneficiaries and volunteers. It strengthened the spirit of service among students and reinforced the role of NSS in building a compassionate and socially responsible campus.
