

GENDER EQUITY AND SENSITIZATION IN CURRICULAR ACTIVITIES

Gender equity and sensitization in curricular activities are essential for fostering an inclusive and progressive educational environment. By integrating gender perspectives into curricula, college can promote awareness, understanding, and respect for gender diversity among students. This involves incorporating examples, case studies, and discussions that challenge traditional gender roles and stereotypes. Through such efforts, educators can empower students to recognize and address gender-based inequalities, promoting a more equitable and just society. Additionally, providing opportunities for critical reflection and dialogue can further enhance students' ability to navigate complex gender dynamics and contribute to positive social change. Ultimately, integrating gender equity and sensitization into curricular activities is not only a matter of promoting equality but also of nurturing empathy, tolerance, and respect for all individuals. The college organizes various event on gender equity and sensitization to bring awareness among the girls and boys students.
