

**INTERNATIONAL SCIENCE DAY**  
**10<sup>th</sup> NOVEMBER 2019**

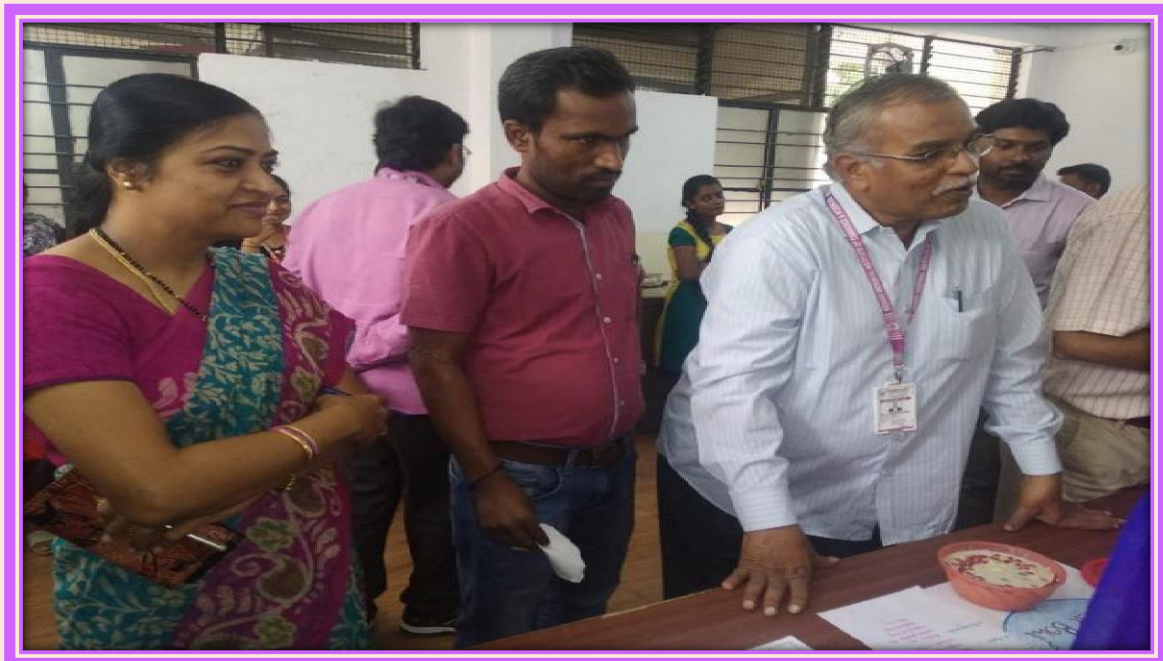

To commemorate International Science Day 10<sup>th</sup> November for the year 2019, Science Association Committee of KMICS has organized some events and competitions for both UG and PG Science students to awaken their hidden talents such as Healthy and Nutritive Food show, Drawing and Painting competition and Best out of waste Model making. Many students participated interestingly and enthusiastically in all the competitions. Judges were allotted to assess their talents.

**Food Show by the Students on account of International Science**

**Judges tasting and assessing the exhibits of food show**

**Students explaining the health benefits of the food exhibits to the judges**

**Principal and judges viewing the exhibits**

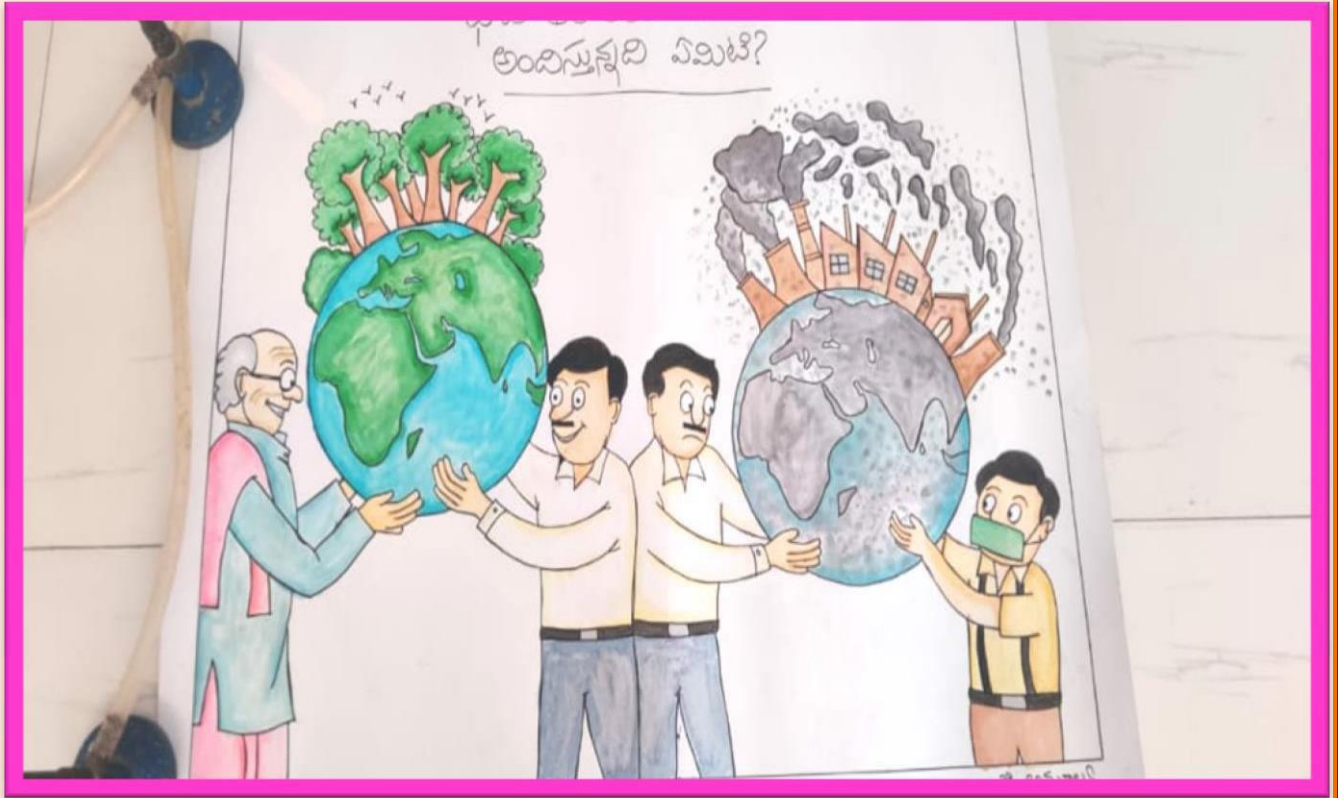

**Vice Principal DR.P.Somanatham interacting with the students in Food show**

**PG chemistry student explaining the nutritive value of the food exhibit**

## Drawing competition

**Students participating in Drawing competition**

**Students participating in Drawing competition**

**PG Chemistry students participated in Drawing Competition**

**Students explaining about their exhibits to the judges**

**Students prepared Models and art pieces from Best out of waste**

**Students prepared Models and art pieces from Best out of waste**

**Student from PG Statistics Dept Prepared Tree from Plastic waste**

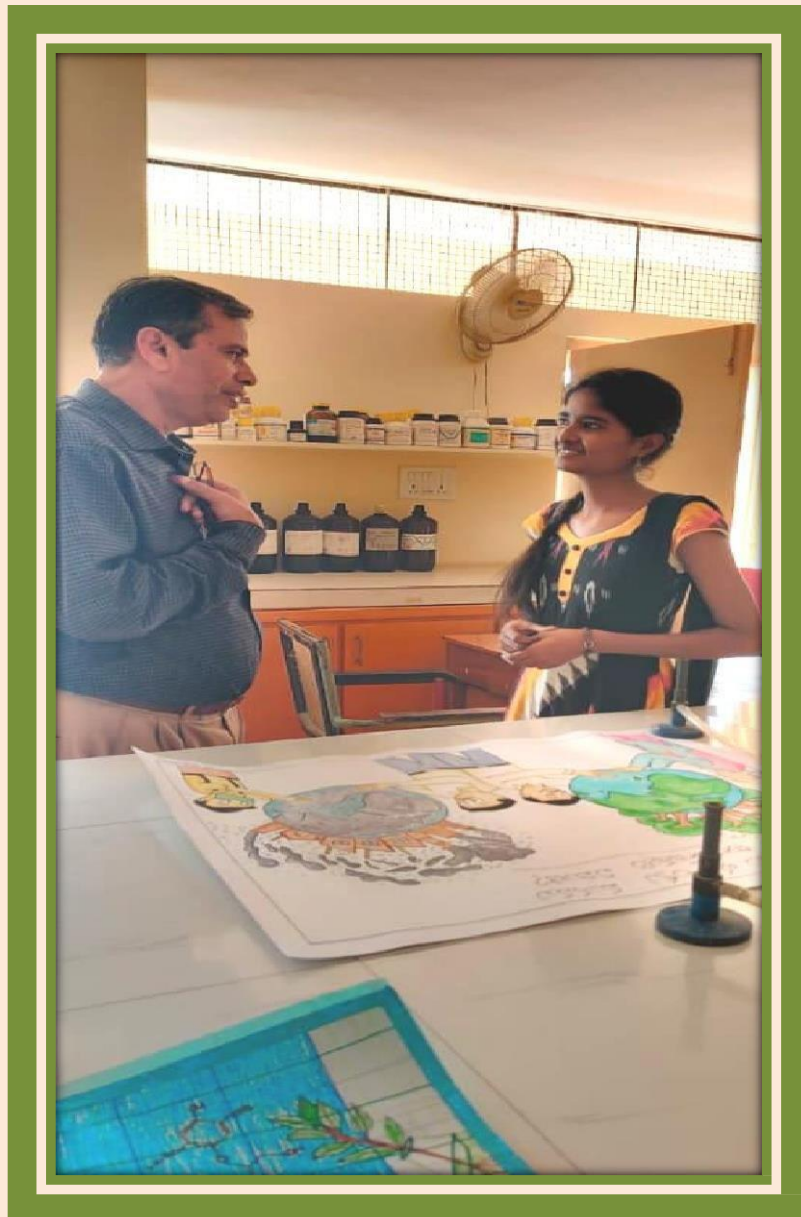

**Science Association Committee Convener Mrs.P.Shravanthi along with student**

**Student explaining the concept in their drawings to the judges**

**Student explaining the concept in their drawings to the judges**

**Student giving explanation about the theme behind the drawing**

**Faculty viewing drawing exhibits**

**Science Association committee Members and judges along with participants of food show**

# **NATIONAL SCIENCE DAY CELEBRATION**

**RESOURCE PERSON: DR. ROJA RANI PRINCIPAL, OUCW KOTI**

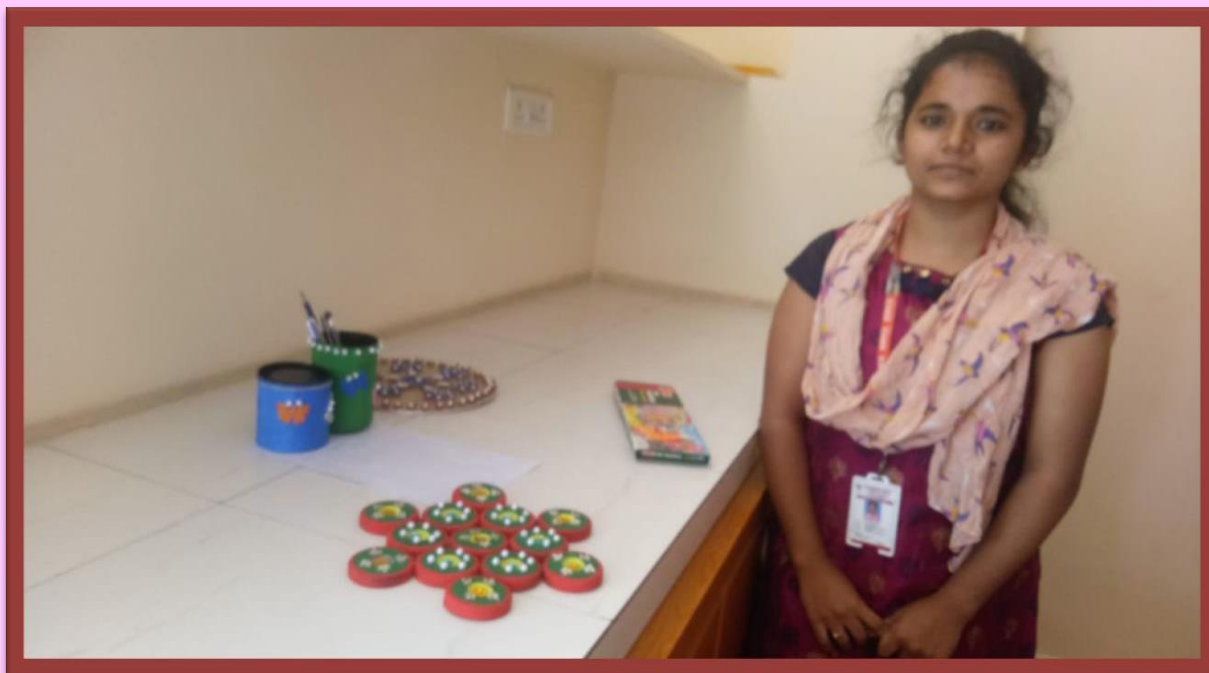

**DATE- 28/2/2019**

**On account of NATIONAL SCIENCE DAY , Science Association Committee has organized four events & competitions for all U.G & P.G Science students of KMICS. Out of which two events were organized on 25<sup>th</sup> February 2019 i.e., Healthy & Nutritious Food show & Best out of Waste models.**

**On 26<sup>th</sup> February, two more events Drawing & Painting on any science related theme/topic and Just A Minute (JAM) on Effects of Junk Food (or) Traffic Safety Rules were conducted.**

***Students participating in drawing and painting competitions***

***Best out of waste making***

***Healthy and nutritious food show by PG Chemistry students***

**The programme started with the inviting the Guest Principal, IQAC Coordinator, Science Association Committee Convener on the dias and the Guest was honored with bouquet presentation.**

**Prof. A. Roja Rani ,Principal of O.U.C.W, Koti, Chief Guest**

**Shweta Tiwari from P.G. Analytical Chemistry II Year & Akshay Sri from P.G Organic Chemistry II Year hosted the programme.**

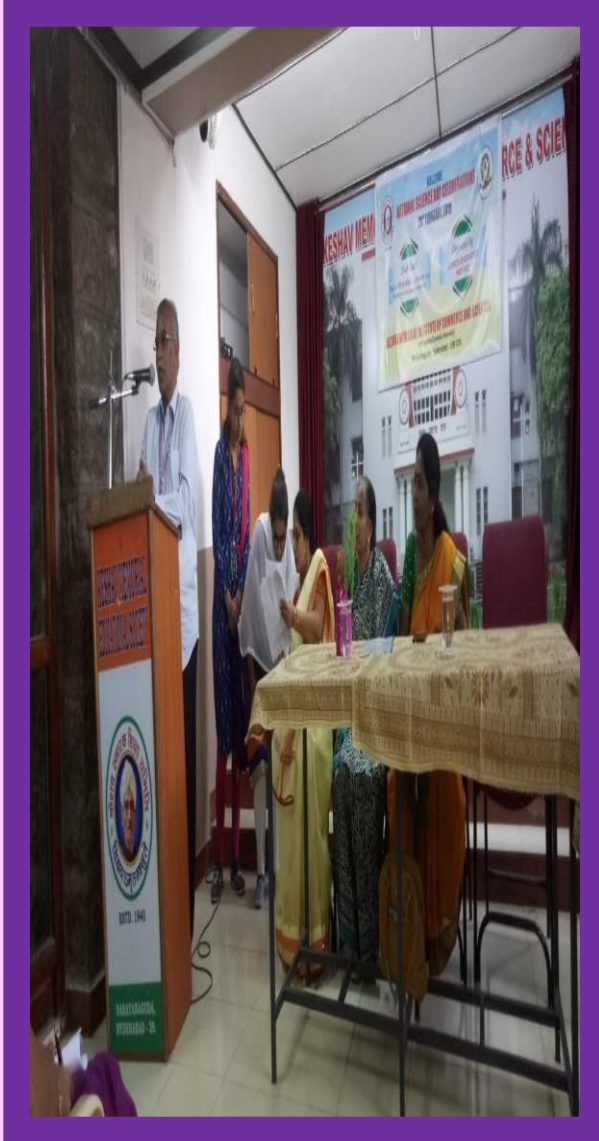

**It is a tradition to begin any programme with lighting of the lamp and offering a prayer song to Goddess Saraswathi**

**Then the Convener of Science Association Committee presented a brief Report about the Activities of the Association. In her report Madam said that every year they organize some events, programmes & competitions to bring out the scientific talents, thoughts & approaches to the prevailing Scientific situations in today's world. All students show more interest to participate in such events & it would boos up their scientific temper.**

**Later on Principal of KMICS, Dr .J. Nageswar Rao garu addressed the gathering and said Science & Technology has many advantages & Disadvantages, so all of us must use Science for Creating Peace& inventing many new scientific approaches for the betterment of the society rather than to harm. Sir encourage all the students to participate in such events & congratulated all the participants & winners.**

**Before Guest speech ,Mrs. M. Sangeetha Lawrence faculty from P.G. Analytical Chemistry gave the Introduction of the Chief Guest Prof. A. Roja Rani.**

**Sanskrit sloka was recited by the students before the speech.**

**The Chief Guest for the occasion Prof. Roja Rani madam addressed all the students on account of National Science Day.**

**In her speech madam said that every person can think, observe the nature & environment and bring out a new thing out of it and become a scientist.**

**Observing the Environment and Nature are very important for solving any issue or inventing or discovering any new thing. She encouraged the students to perform research, to develop scientific thinking and observation. She also appreciated all the participants of the events.**

***Model making from best out of waste***

**The prizes were distributed to the winners in the four events and certificates were given to all the participants by the Chief Guest & Principal.**

### **SUMMARY OF THE PROGRAM**

**Science Association Committee has organized few competitions to all science Dept students on account of National Science Day like Drawing, Painting, Best Out of waste, and Healthy and Nutritious Food show and Poster presentation.**

**Many students from different science Departments participated enthusiastically in various competitions organized by the science committee. Madam has emphasized on the importance of environment, how pollution is affecting it. She also said that many foreign scientists are doing research on Indian Herbal plants and extracting and knowing their medicinal properties. The Guest speaker Prof. Roja Rani stressed about the importance of science in our daily life, and she encouraged students to take up research after their course completion.**
